

CLIENT / AUDI / BRISTOL

PROJECT TIMESCALE:
20 WEEKS

PROJECT SIZE:
3433M2

HIGHLIGHTS

Electrical contract for Mon Motors, Audi on behalf of BDB. The work was carried out under the watchful eye of Waterman's (Electrical consultants) to ensure that the project was delivered to a high standard. The project had its own challenges due to the current financial climate at the time, which resulted in the programme being compromised, however this was successfully overcome due to the flexibility of our services.

PROJECT TYPE

Audi Bristol was carried out on a Traditional build contract working under an Electrical consultant (Waterman's).

WORK CARRIED OUT

- Specialised showroom lighting from iQuzzini to all areas
- Showroom - suspended lighting, floor boxes to the floor area and a fire aspirated system.
